

APPENDIX A-22

WEAPON SYSTEM TRANSACTION ORIGINATION CODES (TOCs)

1. Number of characters: One.
2. Type of code: Alpha.
3. Explanation: The Weapon System Transaction Origination Code (TOC) is a one-position alpha representing the initiation/origination point of the Weapon Item Data Transaction, DIC WS1, appendix B-144, submissions to the Weapon System the Weapon System Data Base (WSDB). The Weapon System TOC appears in pos. 62 of the WS1 transaction.
4. Source: The Weapon System TOC is system generated indicating the point of origin of the submission and is used primarily by internal processes.
5. The Weapon System TOCs are listed and defined as follows:

<u>CODE</u>	<u>DEFINITION</u>
A	AUTODIN System generated indicating a Military Service's WS1 submission via AUTODIN.
B	BRAC System generated indicating Services' WS1 submissions resultant from criteria related to the BRAC Realignment and Closure item Log Loss processes.
C	CENTER System generated indicating a Defense Supply Center (DSC) WS1 submission for a Military Service.
H	HEADQUARTERS System generated indicating a HQ, Defense Logistics Agency (DLA) WS1 submission for a Military Service.
O	(See note below)
P	PROVISIONING System generated, indicating a Provisioning process WS1 submission via internal SSR processes.

NOTE: A Transaction Origination Code (TOC) of O (alpha) was used to denote an ORIGINAL submission, which means that the WS1 was entered into the system from the original download of data from SAMMS Trailer Records to the Weapon System Master File (WSMF) at the time of data base conversion (1988/1989).
